

## OUR PLATFORM

### EMPOWERING YOUTH

The generation most impacted by the decisions made by Jewish national institutions should be empowered to participate in making those decisions. VISION is the only list participating in the World Zionist Congress elections exclusively running the young activists currently at the forefront of today's battles over Jewish liberation, identity, and Israel's legitimacy on campus.

### PARADIGM SHIFT

VISION breaks free from the narrow confines of outdated paradigms by exploring fresh solutions to Israel's conflict with the Palestinians and empowering our youth to formulate their own Jewish liberation ideologies relevant to the current chapter of our people's story.

### PEACE

While VISION views peace with the other native peoples of the Semitic region to be a yet-unfulfilled goal of our people's revolution, we recognize that the two-state model being aggressively promoted for the past 30 years has not and cannot succeed, as it negates the aspirations of both Jews and Palestinians and has only resulted in several new injustices for both peoples. VISION supports grassroots engagement efforts to cultivate better relations between Jews and Palestinians, based on mutual understanding and respect.

### IDENTITY

The Jewish people constitutes a proud ancient civilization with a unique culture, worldview, traditions and homeland. But as a result of our displacement and many centuries of oppression, several aspects of our identity have been stolen from us or diluted to the point of becoming barely recognizable. Every people that experiences liberation must subsequently engage in a post-colonial conversation. VISION promotes conversations aimed at decolonizing Jewish identity as a necessary component of rebuilding Hebrew civilization in the modern age.

### PEOPLEHOOD

VISION views the Jewish people as one large collective family with a shared history, common destiny, and mutual responsibility. While we recognize the sociological realities within the Jewish world and seek to be inclusive, we relate to the prevalent labels as only having secondary importance when compared to identification with the nation of Israel and participation in its historic mission.

### THE HOMELAND

VISION is committed to the principle that our homeland cannot be divided. We act to ensure the natural right of all Jews to live within an independent State of Israel between the river and the sea, while also striving to act upon our obligation to ensure justice and dignity for all inhabitants of our country, Jew and gentile alike.
