The first Zionist Congress was convened by Theodor Herzl, the founder of the modern Zionist Movement, and held in Basel, Switzerland from August 29-31, 1897. This gathering formally launched the Zionist movement, leading to the creation of the State of Israel. Today Zionism continues to connect Jews worldwide with our homeland as we continue to support, develop and promote Israel. Join with Jewish leadership, government officials, the Consulate of Israel, WZO and other community organizations, as the American Zionist Movement gathers to honor this special day in our history and celebrate the 120th anniversary of modern Zionism.
