

Did you know?

Israelis in the USA are a HUGE community!
(How huge? Numbers are estimated between
700,000 to 1,000,000 first-generation and
second-generation Israelis). We represent
almost 7.5% of Jews living outside of the State of
Israel!

And now it's time for our voice to be heard!

It's time for our values and needs to be represented within the largest and most influential Zionist forum, the WZC. On the one hand, we are not represented by the State of Israel (as we live abroad), while on the other hand, outside of Israel we experience concerns and needs that are not necessarily being addressed;

NOW it's the time to change it!

While it seems that we are neither here nor there -- we hereby declare that we are both here and there! And we have a lot to bring to the current Zionist discussion from an American-Israeli point of view.

“Israel Shelanu” (ישראל שלנו)

was formed by a group of Israelis living in the US who seek to nurse the relationship between world Jewry and the State of Israel, and to promote an open and pluralistic Jewish culture, support our brothers and sisters in their effort to be recognized in the State of Israel.
