ABOUT US

Achdut Israel was founded in response to the October 7, 2023 attacks. We are a slate dedicated to supporting Israeli soldiers, their families, widows, orphans, and amputees while empowering Jewish communities worldwide. Through initiatives like Operation Koach Tzvika, we provide critical resources, self-defense training, and unwavering support to those who need it most.

OPERATION KOACH TZVIKA

SUPPORTING OUR SOLDIERS

We provide soldiers with financial aid, BBQ's, and **looking after their families.**

WIDOWS & ORPHANS

We assist with practical help, like food for Shabbat, therapy for children, and financial support.

AMPUTEES PROGRAM

We support amputees by making homes accessible, connecting them to jobs, and aiding recovery.

PROTECTION

We empower Jewish communities with training and tools to stand strong against rising threats.

The ones who need it the most.

The most important mission of our slate is ensuring that **Israeli soldiers are fully supported**, both during and after their service. This includes addressing the needs of **their families**, assisting those **injured** in the line of duty, and helping soldiers transition to meaningful opportunities beyond war. Our primary impact is to ensure that those who protect and defend us are never left behind, while also **fortifying Jewish communities** against rising antisemitism, fostering resilience, and strengthening unity worldwide.

The time is now.

Our slate's mission is more critical than ever as Israel and the Jewish world work to recover from the devastating attacks of October 7, 2023. **These events left countless soldiers injured, families displaced, and communities shaken.** The need to support soldiers who have sacrificed everything, provide for their families, assist those facing life-altering injuries, and ensure they have a future beyond the battlefield is urgent. At the same time, rising antisemitism worldwide underscores the importance of empowering Jewish communities with the tools to **protect** themselves.
