The World Zionist Quiz

How do we play the game?

1. We conduct a draw in which each team receives a number. The team with the lowest number answers first.
2. Only half of the team can answer and if successful, they get the full 100 points for each question. If they need the help of the other half, they will get up to 50 points. Each of the first two questions will be answered by a **different half of the team. The third question will be answered by the entire team. A hint is possible for 50 pts.**
3. After the three rounds – each team will have answered three questions. The total score is then calculated. If there are three top scoring teams, they continue to the next stage. If there are more, the “breaking point” stage begins as the tie must be broken and only three teams must remain. Any question that cannot be answered by a team member results in the elimination of his/her team.
4. The top three send one person to answer the open questions.
5. If a contestant doesn't know an answer for the third time his/her team is out of the game.
6. The two remaining teams face one another in a one on one competition until a contestant doesn't give a correct answer twice. When this happens we have a winner!!!
